

The Bray and Slaughter Ltd board of Directors believes that working in a way to minimise our impact on the environment is of key importance to the sustained success of our business and helps provide social value.

As a minimum, we will comply with all applicable legal and regulatory requirements and set annual environmental objectives, to deliver continuous improvement across the business.

Our goals:

- Achieve net zero carbon emissions.
- Minimise energy use, water use and waste production.
- Prevent land, air, and water pollution.
- Protect and improve biodiversity on our projects.
- Be an excellent neighbour to residents and businesses and have a positive impact on communities
- Protect archaeological/heritage monuments, buildings, and sites.

Our commitment:

- Establish and maintain effective environmental management systems.
- Identify aspects and impacts from our activities, raise awareness, and implement effective control measures.
- Provide adequate information, instruction, training & supervision to employees, so that they are competent to carry out their work.
- Regularly communicate and consult with employees, community stakeholders and interested parties on matters affecting the environment and sustainability.
- Regularly measure and review our environmental performance with the aim of reducing waste production, use of resources and carbon production
- Investigate all relevant environmental incidents and near misses to find root causes and prevent a recurrence.
- Audit the effectiveness of our environmental management system with the aim of continual improvement.
- Make the necessary resources available to implement this policy.

This policy applies to all departments within Bray and Slaughter Limited and will be next reviewed on the 18-12-2024 by the Board to ensure its continuing suitability, adequacy, and effectiveness.

Signed: Grant Jefferies
